MCMURDO CLIP — Radoman R. R. Semington goes about his duties in Operation Deep Freeze at McMurdo Sound, Antarctica, sporting the latest haircut, the "McMurdo Clip." Semington claims he did not cut his hair himself, and it goes great with heavy, fur-lined parkas. — NEA Telephoto.

Family on a Yacht Recued From Youths

KEY WEST, Fla. (AP) — A Winter Park family's holiday cruise turned into a 14-hour gunpoint ordeal when three teen-agers boarded their yacht and demanded to be taken to Mexico.

A note smuggled ashore brought rescue for Richard Sias, his wife and four children.

Officials considered bringing charges of kidnapping and even the archaic crime of piracy against the youths, all from San Antonio, Tex.

Sias, 33, a packinghouse machinery manufacturer, his wife Phyllis, 30, sons, David, 14, and John, 10, and daughters, Jane, 15, and Bobby, 13, were shaken but physically unharmed.

The three youths boarded the sumptuous, 40-foot power yacht Fleeta II at Craig in the Keys New Year's Eve. They pointed a .22-caliber rifle at the Sias and said, "Keep quiet, we'll tell you what to do," Sias related.

"They were polite and didn't use any foul language," he said, "but they kept the gun on me and my wife and made me do what they wanted."

Sias said the boys first insisted they should take off right away for Mexico. He persuaded them it would be necessary to take on more fuel, obtainable only the next morning.

The Fleeta II went into Islamorada for fuel and while it lay there, young David managed to slip ashore momentarily, with a note which he handed to Murray Cribb, a docker. The note said: "We are being held at gunpoint. Get help."

Joint Chiefs of Staff in for a Probe

By JACK BELL

WASHINGTON (AP) — The Senate Preparedness Subcommittee has under consideration a series of proposals that could lead to legislation sharply reorganizing the Joint Chiefs of Staff of their military commands.

The subcommittee, headed by Democratic Leader Lyndon B. Johnson of Texas, has heard contradictory testimony from military leaders and scientists about the amount of service rivalry that still exists under supposed unification of the armed forces.

Most subcommittee members now are convinced there has been so much confusion and bickering among Army, Navy and Air Force leaders in the Pentagon that the nation's missile and satellite programs have been seriously handicapped.

While there is no unanimous opinion, the prevailing impression among subcommittee members seems to be that it might be best to start at the top of the military structure, in any recommended shakeup. This could take the form of relieving the Joint Chiefs of command duties.

The Joint Chiefs, consisting of the heads of the three services, have a dual role of advising military planning and of operating the individual services. This has led to some suggestions that their loyalty to their individual services has interfered with their decisions on overall military plans. Although Gen. Nathan P. Twining, chairman of the Joint Chiefs, has denied this in public testimony,

Soviet Moon Lielky to Die Today Unseen

By DON GUY

CAMBRIDGE, Mass. (AP) — Sputnik 1, which burst upon the world last Oct. 4 as history's first man-made satellite, may die quietly today unseen by human eyes.

American astronomers say the 22-inch, 184 pound sphere has been "lost" for the past month. They base their prediction of its death on orbit calculations carried forward from observations made in late November and early December.

Dr. Fred L. Whipple, director of the Smithsonian Astrophysical Observatory, says it's impossible to pinpoint just where the final flaming plunge into the earth's atmosphere may take place.

The Smithsonian has alerted its 150 Moonwatch teams throughout the world to maintain a death watch for the Soviet satellite. Observation of its final dive, when it should look like a fireball on meteorite, is of the utmost scientific importance, the observatory says.

Youth Wounded Accidentally

LONOKE, Ark. (AP) — Larry B. Castleberry, 14, of near Lonoke was seriously wounded yesterday when his shotgun apparently fired accidentally while he was hunting rabbits near here.

Sheriff Warren C. Minion said the boy was struck in the left side of the face and part of his right hand was blown off by the blast from the 16-gauge shotgun.

Larry son of Mr. and Mrs. Hughes Castleberry, was taken to a Little Rock hospital. Attendants said he was in serious condition.

Minto said Larry, his cousin R. C. Castleberry, and Marvin Turner, both 16, were pursuing a rabbit into a hollow log when the accident occurred. The boys had laid their weapons aside while chasing the rabbit and Minion said it appeared that Larry's shotgun went off when he picked it up by the barrel.

Larry son of Mr. and Mrs. Hughes Castleberry, was taken to a Little Rock hospital. Attendants said he was in serious condition.

Federal Guards Back on Duty at Central High

LITTLE ROCK (AP) — Federalized state guardsmen who returned to Central High School yesterday after an absence of nearly two weeks, walked familiar paths this morning as students came back from their Christmas holidays.

About a dozen women who identified themselves as members of the pro-segregationist Mothers League of Central High gathered on a corner across from the school as classes began.

A few of the women talked to some white students briefly outside the school, and all left shortly afterwards.

Asked by a newsman why they showed up today, one unidentified woman said:

"Our mission is accomplished. We showed the need for the troops to be there."

The Army pulled all troops away from the school Dec. 19, a day after the 2,000 white pupils and nine Negro students were dismissed for the long holiday recess.

School watchmen and off-duty city patrolmen hired by the school board took over the guarding of Central High while the troops were gone.

The return of the soldiers yesterday was uneventful. Only about a dozen troops are being posted at Central High at any one time. The Army said yesterday no change is planned in this procedure.

Soldiers on duty at the school are part of the last 432 Arkansas guardsmen still in federal service. Yesterday, Major Gen. William C. Page, acting state adjutant general and temporary guard commander, said:

New Machine Manufactured in Hope Revolutionizes Ladder Production at Local Factory

A NEW MACHINE will soon go into operation in the ladder department of Southwest Woods Products here. This wouldn't cause much attention except for the fact that the machine was originated and built right here in Hope and is the only one of its kind.

The machine, in one continuous operation, makes right and left ladder rails simultaneously. It trims the ends at angles, cuts the gains or dados for the step to rest on, then moves from the saws to the drills where it bores all the holes for all hardware used on the ladder. The machine is geared to make from 300 to 500 ladders an hour, depending on the capacity desired. Previously the plant could make from 250 to 300 ladders a day.

Men previously used to make the rails can now be shifted to parts assembly line, thus increasing output fantastically. In fact to keep up with the machine, should it be used at full capacity, the assembly line would require much more additional help.

Frank King, manager of Southwest Woods Products, mulled over the idea for years before placing it in the hands of E. P. O'Neal, owner of Arkansas Machine and Specialty Shop. Mr. O'Neal took Mr. King's original plans and with many changes over a three year period developed the machine to its present production stage.

The retail prices of wines, automobiles, motorcycles and machine-made carpets, also were raised. Reductions were announced for some types of television sets and some Russian cameras.

Prices of a number of unspecified industrial goods went up or down.

The Ministry of Retail Trade, which made the announcement, said the prices of bread and bread products would be rounded off for easier accounting, with most of the benefit going to the consumer.

The ministry did not specify the new prices, but at a liquor store half a liter of best grade of vodka, formerly priced at 25 rubles and 90 kopeks, was quoted today at 30 rubles and 80 kopeks.

At the official rate of exchange that would be an increase from about \$6.50 a pint to about \$7.75 a pint.

Vines were up two to four rubles a bottled sales places reported. The price of the new Volga, comparable to the smallest American cars, was increased to 40,000 rubles from 32,000.

Pravda said the main reason for price increases was the need to replace six billion rubles cut from the government's income by elimination of the "bachelor's tax," which imposed a higher levy on persons without dependents.

Brown told the committee he accepted the money from Sam C. Jones, a bondsman, who testified earlier that he got it from Callaway. Brown said he then gave the \$1,000 to Schofield in the belief it was to help the judge's unsuccessful attempt in 1954 to win the Democratic nomination for governor.

Sputnik Lost to Giant Telescope

LONDON (AP) — The giant radio telescope at Jodrell Bank has failed to pick up Russia's Sputnik No. 1 since Dec. 26.

Prof. Alfred Lovell, the scientist in charge of British observations of the satellite, suggested today that the first man-made moon may plunge to its destruction without anyone seeing it.

"We have established that the satellite is not in its predicted orbit," Lovell said.

"There has been insufficient time to carry out a full search of the sky, and hence the last phase in the life of the satellite is likely to remain unknown unless observations are available elsewhere."

Venezuela Has Spiked Revolt, President Says

CARACAS, Venezuela (AP) — The government of President Marcos Perez Jimenez announced before dawn today that it had crushed an air force revolt in less than 24 hours.

The army chief of staff, Gen. Romulo Fernandez, in a broadcast said the rebellious garrison at Maracay, center of the revolt, had been taken by government forces at 3:30 a.m.

Fernandez added, however, that scattered pockets of rebels were being mopped up.

The army chief repeated the claim by President Perez Jimenez in a broadcast last night that the rest of the country—the world's No. 2 oil producer—was completely calm.

Fernandez said that the rebel leaders fled by air. He reported that Aurelio Ferrero Tamayo, commander of the Maracay Garrison and governor of the state of Aragua, had been restored to his post along with his chief aide, Maracay is the capital of Aragua state.

Ferrero Tamayo and other officials had been seized by rebel troops at 5 a.m. yesterday, Fernandez said.

At 4 a.m., this morning, Fernandez continued, 25 air force planes from bases at Palenque and Boca del Rio in Maracay were at the main Caracas airport in the service of the government.

In Caracas' light, searchlights were turned on against the brown-out imposed by the government as a defense against rebel planes.

Brown told the committee he accepted the money from Sam C. Jones, a bondsman, who testified earlier that he got it from Callaway. Brown said he then gave the \$1,000 to Schofield in the belief it was to help the judge's unsuccessful attempt in 1954 to win the Democratic nomination for governor.

Cautions About Spending Under Defense Guise

WASHINGTON (AP) — Chairman Cannon (D-Mo.) of the House Appropriations Committee cautioned today against a government spending spree under the guise of national defense.

"Where the national defense is concerned, we cannot count the cost and we must provide all the money necessary," he said in an interview. "But that's no reason why we should get hysterical and spend vast sums of money that aren't necessary."

"A great many people are going to use national defense as a reason to bolster their requests for bigger appropriations," Cannon added. "To them, Sputnik is a godsend. The pork barrel follow us we still must have our pork."

The pork barrel reference was to annual bills providing for local projects such as river and harbor and flood control programs, on which many members base their election campaigns.

Some Congress members already are contending that such projects add more than their cost to the nation's wealth, and must not be neglected.

Because of the obvious need for more money for national defense, particularly in the missile field, Cannon said, "We must be all the more economical with the things we don't have to have."

Cannon said he expected demands to be made for continued heavy spending as a means of spurting business and heading off deflation.

"The very fellows who were demanding retrenchment are now saying we must spend more to keep business going," he commented. "We have got to exercise common house sense in our spending."

6,000 State Workers Go on a Strike

By THE ASSOCIATED PRESS
Labor stoppages by an estimated 6,000 building trades workers at Little Rock and Fort Smith today marked the first business day of 1958 in Arkansas.

Union representatives at Little Rock said yesterday they were ready to resume negotiations for a new contract with the Associated General Contractors. But a spokesman for the AGC said the unions would have to make the next move.

Contracts between the AGC and the Carpenters, Iron Workers, Common Laborers and Plumbers and Cement Finishers Unions expired at midnight Tuesday. Union members have refused to work unless a new contract is formulated.

Most of the idle workers are in the Little Rock area. At Fort Smith, about 500 laborers have quit work with the expiration of their agreement with contractors in Sebastian and Crawford counties. The contractors set a meeting for today.

Union members at Little Rock made one exception to the general rule of "no contract, no work." They have offered to stay on the job at the 21 million dollar housing project at Little Rock Air Force Base under a building contract with Miles Construction Co. of California. That contract will be effective until November.

Nine Persons Die in Auto Accident, Six in One Family

Red Skelton's Condition Good

SANTA MONICA, Calif. (AP) — Comedian Red Skelton's condition is described as slowly improving but still serious.

An attack of asthma and lung congestion carried Skelton to the brink of death Monday night.

"I can't honestly say that he is past the danger stage yet," his physician, Dr. Garth K. Graham, said last night.

The pork barrel reference was to annual bills providing for local projects such as river and harbor and flood control programs, on which many members base their election campaigns.

Some Congress members already are contending that such projects add more than their cost to the nation's wealth, and must not be neglected.

EUREKA, S.D. (AP) — Nine persons, including the parents and four children of one family returning home from a holiday visit, were killed about midnight Wednesday in a head-on car collision.

Killed were: Mr. and Mrs. Walter Beck, 45 and 42, respectively, Eureka farm residents, father of their children, Harold (18), Ruby (11), Priscilla (4), and Doris (2). Two other Beck children were injured.

Also killed were Marvin Newhardt, 18, driver of one car; Larry Wisniewski, 15; and Clyde Krehl, 16, all of Eureka. The latter two were passengers in the Newhardt car.

Hospitalized in fair condition at Eureka were Wilbert, 10-year-old son of the Becks, and his sister, Mary Lou, 6.

Eight of the victims died in the wreckage. The Wisconsin youth died in a Eureka hospital.

Sheriff Irving C. Mutscher said the impact mangled the two cars. The Becks were returning to their farm home after visiting relatives on New Year's Day. They were about 3½ miles west of Eureka on State Highway 10 when the cars met.

Authorities said the youths in the Newhardt car apparently were just out riding.

Eureka, a farming area town of 1,000, is in north-central South Dakota, about 220 miles northwest of Sioux Falls.

The death toll equaled the worst traffic crash in the history of the state, the patrol said. A similar collision in August 1956 also killed nine persons, including five members of one family.

All Around Town

By The Star Staff

BOWL REFLECTIONS: The Texas members of the Southwest Conference looked pretty lousy in three bowl games, they all lost... believe the outsider Arkansas could have made a better showing... why don't the networks get wise... if they plan to carry three games they can't carry all of each game... certainly the cash from TV is a vital part of each game... so why not start one game at 12 noon, the second at 2:30 and the third at 5 p.m.?

And here's something else... nothing is more provoking than a commercial (usually two) that make viewers miss a kickoff or scrimmage play.

According to State Health Department statistics there were 30 births in Hempstead County during the past month... there were 27 boys as compared to 12 girls... usually there are more girls than boys... the figures show there were 17 white boys and seven white girls as compared to 10 Negro boys and five Negro girls.

Coach Don Seyler was very happy to announce the basketballs have been taken from the gym have been found... one of the managers had hid them, but the manager said the boys and girls teams go to the gymnasium tomorrow night for a game.

to drink before. This could be bad for good.

In France, a premier will remain in power longer than any other premier since the end of the last World War. This could be bad or good.

In the Middle East there is no question about what can happen. It is bad or good. These things are certain.

For the rest of it, the pattern of 1958 seems reasonably clear. In North Carolina in March a lady driver will hear a strange buzzing in her car. On investigation it will turn out to be a snake. How did it get there?

In Minnesota in June another lady will hear a strange noise in her car, and it will turn out to be a baby alligator. And the question will be: How did it get there?

In California in September a wife will unexpectedly greet her husband returning from a business trip, and there'll be a girl in the front seat.

The big puzzle of 1958 will be not how the snake got about a car in North Carolina, or how an alligator achieved it in Minnesota, but how the girl knew the car was going to California. The solution will come in court in 1960.

Long-range 1958 weather forecast: Cloudy, intermittent sunshine, no serious frost. Horoscope: Hopeful.

The Miles company said about 200 carpenters failed to appear for work at the air base, but the remainder of the labor force there, 250 men, were on the job.

The AGC has offered a 20-cent wage boost over the next two years, an offer the unions turned down. Originally the unions asked for a 50-cent increase but this reportedly was scaled down somewhat to a figure which was not revealed.

Howard Ross, vice president of Miles Construction Co., notified L. P. Williams, secretary of the Building and Construction Trades Council, that the 34 subcontractors on the Little Rock Air Force Base project would be governed by AGC action against the local contractors' committee.

Ross said the subcontractors had told him they would not "enter into side or special agreements with unions in this area, since it is their policy not to interfere with the negotiation of local labor agreements."

He added that work would be carried on only under conditions accepted by local contractors who have been negotiating with unions. John Mayfield, business agent of the Carpenters Union, said yesterday that his union would enter into separate agreements with any contractor who was willing.

But William J. Smith, attorney for the AGC, said this could force the contractors to seek an open shop.

Previously, the unions have acknowledged the AGC as the bargaining agent for all contractors—whether or not they belong to the AGC. And the AGC has looked on the wage rate negotiated with the unions as the prevailing scale for all building tradesmen, whether or not they are union members.

Williams, the building and Construction Trades Council secretary, said he had no estimate on the total number of workers currently idle.

But he said that up to 6,000 workers under council jurisdiction might be caught in the backlash of the stoppage unless agreement is reached.

Most of the workers involved would be in the Little Rock area.

Williams said, although 12 other central Arkansas counties are within the council's jurisdiction.

Federal Guards

mandar, said the Arkansas guard is about 1,000 men below normal strength because of recent discharges. But he said integration has had little to do with the slump.

He did say that about 120 guardsmen declined to re-enlist because they had been used to help enforce integration at Central High. And Page added that another 700 to 800 men have threatened to get out of the Guard for good when their enlistments expire.

However, he said, "I feel that the final figure will be below, probably well below this number. I don't think that recruitment will be impaired because of the Little Rock situation."

The guard, which had 10,500 men at the height of the integration crisis here, played a major role in the dispute.

Guardsmen posted at Central High by Gov. Orval Faubus blocked the entry of the nine Negro students when the fall term opened. Later, resident Eisenhower federalized the entire guard and sent in 1,000 paratroopers to enforce a federal court order for integration.

The guardsmen being used for duty at Central High now are under direct federal control. Most of the guardsmen were released in October and November and the paratroopers have been gone for weeks.

Albanian Reds Force Down British Plane

LONDON (AP)—The French legation in Communist Albania reported today that five men and a woman aboard a British cargo plane forced down by Red fighters are safe and well.

Britain has not had a diplomatic mission in the Soviet satellite on the Adriatic since 1946 and asked the French to investigate the downing of the plane. The Albanians accused the aircraft of trespassing.

The Bermuda Islands are the most northerly coral islands.

Price Decline in Grain Aids Milk Producers

WASHINGTON (AP)—Recent declines in prices of grains and other livestock feeds are allowing producers of milk to net somewhat higher returns.

In a farm price report, the Agriculture Department says the ratio between prices of feed and milk is much more favorable than average.

The report said that in December, the price a dairyman received for one pound of whole milk would buy 1.56 pounds of concentrated dairy ration feed. In the 1956-57 period, one pound of whole milk would buy an average of 1.20 pounds of ration. Thus, December milk would buy about 20 per cent more feed than milk did during the 20-year average period.

Tending to offset in part the increased feed buying power of milk in December is the fact that labor used in producing milk costs more than during the 20-year period.

Department officials said that the low feed prices are encouraging many farmers to buy additional dairy cows. They said also that these prices are encouraging dairymen to delay culling low-producing cows from herds.

This demand for more cows has been forcing prices of milk cows higher.

The feed price situation also favors the hog producers. In December 100 pounds of live hog would buy 18.1 bushels of corn, this compared with 13 bushels for the 1956-57 average. It compared also with 13.33 bushels a year ago. Hence, feeding of hogs at present price relationships offers producers much higher returns than average, and than it did a year ago.

American in Praise of Soviet Leader

By ROY ESSOYAN

MOSCOW (AP)—Martha Dodd Stern praised Communist party chief Nikita Khrushchev and his Central Committee today for "easing tensions and establishing an atmosphere of trust" in the Soviet Union.

Mrs. Stern is the daughter of the late William E. Dodd, U.S. ambassador to Germany from 1933-38, and the wife of Alfred K. Stern, former investment broker.

The Sterns are under indictment in New York on spy charges. They flew to Europe from Mexico last July and later turned up in Prague, where they said they were victims of a U.S. campaign of "vilification and slander."

Mrs. Stern wrote a glowing account of her impressions of Moscow in the weekly Soviet political journal New Times. She said that she attended the big parade in Red Square on Nov. 7, the 40th anniversary of the Bolshevik Revolution, and indicated she was still in Moscow at least through mid-December.

Her impressions of Moscow, after an absence of 20 years, were almost altogether favorable.

She praised Moscow's gingerbread architecture as exceptionally rich and its new housing as modern and well-planned. She said the Soviet capital's broad boulevards give the impression of cleanliness and happiness.

She said food is abundant and prices low in stores packed with quality goods—a statement that might be questioned by other Westerners.

The Soviet automobile, she said, is sturdy and well-built and the cost is about the same as U.S. cars.

The price of a new Volga, comparable to the smallest American cars, was boosted today to 40,000 rubles—\$10,000 at the official rate of exchange.

Even the weather, Mrs. Stern wrote, is wonderful. And as for the people, she said their doors are always open to visitors. Very few Westerners in Moscow could agree with that.

Barrimore to Jail for Three Weekends

BEVERLY HILLS, Calif. (AP)—John Barrimore Jr. and his red-haired actress wife have ended a brief separation, but they're going to be parted again for the next three weekends.

The son of the Great Profile will spend them in the Beverly Hills jail.

Word of the reconciliation got around Tuesday about the same time as a report that young Barrimore had been arrested for intoxication. Officers Douglas Ellis and Carmen Gilberto said the 25-year-old actor and his wife, Cara Williams, were engaged in a heated argument in a parked car.

Friends said the couple was just celebrating the reconciliation.

Barrimore was fined \$100 and sentenced to 90 days in jail for disturbing the peace and being drunk in a public place. The jail term was suspended on condition he spend three weekends in jail.

Chesapeake Bay, 200 miles long and from four to 40 miles wide, is the largest inlet on the Atlantic coast of the United States.

Habeo Franks Celebrates Birthday Anniversary

Mr. and Mrs. J. B. Franks honored their son Roscoe, with a party at their home on Saturday in celebration of his sixth birthday anniversary.

The guests, Ellen McRae, Ellen Gordon, Jane Scott, Judy Woodul, Steve King, Doug Gordon, Tommy DeBlack, Walter Nelson, John Reynolds, Mike Robertson, Jimmy Franks and Blake Scott, arrived at 12:30. They were served ice cream and cake from the dining table covered with a Christmas cloth and centered with a Christmas tree decorated with bubble gum and flanked by a miniature merry-go-round and the birthday cake decorated with flowers.

After Roscoe opened his gifts and Mrs. Franks took pictures of the group, they enjoyed a picture show party at the Nevada Theater.

Mrs. Bennie Moore Complimented With Shower

Mrs. Bennie Moore of Houston, Texas, the former Miss June White was complimented with a miscellaneous shower on Saturday evening given by Mrs. Horace Jones, Mrs. Woodrow Easterling, Mrs. Bill Bolton, Mrs. Howard Taylor and Mrs. Harold Hendrix in the home of the former.

A silvered arrangement was placed on the T. V. in the living room. The dining table held a central arrangement of a bride and groom encircled with maiden hair fern flanked by silver candle holders holding white candles. The honoree's chair was marked with a white carnation corsage.

Several games were directed by Mrs. Bolton with Mrs. Easterling winning the prize. Mrs. Moore's prize was her lovely gifts.

Cake and coffee was served to the eighteen guests.

Shower Fete: Mrs. Moore Misses Claudette Smith, Mary

Mrs. and Mrs. Wells Hamby have

Jewelle Herring and Mrs. Jackie Bolls feled Mrs. Bennie Moore of Houston, Texas with a coffee and miscellaneous shower on Saturday morning from 10 till 11:30 o'clock.

The Smith home was beautifully decorated in the pink and white theme. Mrs. Moore received a corsage of white carnations.

The sixty guests were greeted by Miss Smith.

Dainty refreshments were served from the dining table spread with a pink taffeta cloth overlaid with pink net. The central decor was a box of pink carnations flanked by white candles in crystal candelabra. Miss Herring and Mrs. Bolls alternated at the coffee service. Mrs. Owen Moore, Mrs. Carl White, Mrs. Ardell Clark, Miss Margie Clark and Mrs. Rufus Pormby assisted in dispensing hospitalities.

The gifts were displayed in the bedroom.

Mrs. W. B. Shelton of Longview, Texas was an out of town guest.

Mr. and Mrs. Horace Jones and Mr. and Mrs. A. D. Jones were the guests last week of Dr. and Mrs. Harold Pollock and sons of Oklahoma City, Okla.

Martin Gilbert, Pat Hale, Kenneth Moore and Miss Virginia Ann Hays attended a holiday dance at the Hope Country Club on Saturday night.

Mrs. Virgil Daniel had as holiday guests Mr. and Mrs. R. N. du Plessis, Robin and Natalie of Des Moines, Iowa, Mr. and Mrs. J. I. Williams Jr., Randy, Danny and Mary Gail of Little Rock.

Mr. and Mrs. Wren Scott were the guests last week of Mr. and Mrs. George Scott and children of Little Rock.

Mr. and Mrs. Wells Hamby have

had as their guests Mr. and Mrs. Wade Bell Susan and Allen of Houston, Mrs. John Gibbs of Dallas and Wells Hamby Jr. of Camden.

Mr. and Mrs. L. L. Buchanan Gregg and Marcia, Mrs. Watson Porter, Mrs. Vern Buchanan, Mr. and Mrs. Bobby McBrayer, Mr. and Mrs. W. F. Ligon, Miss Betty and Martha Ligon attended the Taggart Buchanan wedding in Camden Saturday. Mrs. McBrayer served as matron of honor and Miss Martha Ligon was a bridesmaid.

Mrs. J. J. Battle and Miss Matie Royston of Fulton were the guests Saturday of Ms. and Mrs. R. P. Hamby.

Mrs. Vick Scott and Miss Carol Scott were guests last week of Mr. and Mrs. Dwight Scott of Little Rock.

Guests in the home of Mr. and Mrs. Gene Lee have been Mr. and Mrs. George Cummings and Martha of Gladewater, Texas and Mr. and Mrs. Coy Cummings of De Queen.

Mr. and Mrs. Ralph Haynie of

Dr. and Mrs. N. R. Nelson and Lynn spent several days last week in Searcy with Mrs. N. B. Nelson and Dyersburg, Tenn. with Mr. and Mrs. D. T. Pope.

Dr. and Mrs. Jim Thomas and Jim have been the guests of Mr. and Mrs. H. A. Lange of Little Rock.

Defense Policy Change Is Urged of Ike

NEW YORK (AP)—President Eisenhower will be urged to make fundamental changes in the organization and philosophy of the Defense Department, the New York Times said today.

The recommendation, the Times said in a Washington dispatch, is contained in the first of a series of Rockefeller reports to be published Monday.

The Times story continued: "The reports have been in preparation for 15 months. They attempt to foresee the major economic, political and social problems facing the United States in the next 15 years in the light of new Soviet challenges to this country and the free world."

The first report deals with U.S. international security objectives and strategy and was greatly influenced by Gen. Lucius D. Clay, former U. S. commander in Germany.

The report recommends the appointment of a single military chief of staff to the President and

For all practical purposes, the first self-propelled land vehicle with an engine was built in 1769 by a Frenchman, Nicholas Joseph Cugnot. Cugnot's primitive automobile was a cumbersome three-wheeled cart with a steam engine and an enormous boiler. Although it would actually run, it could travel at only about three miles an hour and had to stop every 100 feet or so to get up steam.

© Britannica Jr. Encyclopedia

Like Marian Anderson's Tour Review

By CHARLES MERGER

NEW YORK (AP)—A film account of Marian Anderson's tour of Asian countries on See It Now (CBS-TV), was first-class entertainment simply because the viewing audience heard and saw Miss Anderson singing. But the program was more than that.

It was a moving document of what one woman, traveling 35,000 miles under auspices of the State Department and the American National Theatre and Academy, was able to do in winning friends for the nation. A viewer could conclude that one Miss Anderson can be more influential than two Spulniks.

The See It Now program Monday evening reminded one that the influence of women is too seldom observed on television. An excellent letter to this department earlier in the week expressed a similar viewpoint. It's well worth quoting.

"I've just now—with the help of tranquilizers—settled down after exposure to three 1957 news critiques by three major networks for three hours last Sunday. I sat, sinking lower and lower in my chair and in my spirits as the far-flung correspondents, called in from all points of the globe, expounded and analyzed and took pontifical dim-views.

"When it was all over I realized that, in all the welter of disturbing intelligence flooding my living room, not one woman's voice had been raised, not one woman's face had been shown, not one woman's viewpoint expressed. Global thinking (and didn't a woman, Mrs. Clare Boothe Luce, coin the word 'globaloney') in this past year of crisis involves arms and men, politics and Spulniks, but without any leavening. And I think the grim, frightening picture painted on my TV screen was completely out of focus—really only half a picture.

"It may be true that we've lost stature among our allies; that Russia is making great strides forward in many areas; that our foreign policy is nothing but a series of errors heading toward disaster. But any woman can tell you the world isn't in half as bad a state as the networks' boy thinkers say."

State to Purchase 209 New Autos

LITTLE ROCK (AP)—State Purchasing Agent Mack Sturgis will open sealed bids on 76 used State Police cars on Jan. 17.

The vehicles are being replaced by late model cars and the state is disposing of 1954-55 and 1956 models for as much as they will bring.

Last week the purchasing office bought 56 new cars from a Little Rock firm for \$81,382. Sturgis said the state plans to buy a total of 200 vehicles for all departments in the coming months. Purchases will be made in lots of 20 to 40 depending on budget requests.

the secretary of defense, over the Joint Chiefs of Staff. Presently the chairman of the Joint Chiefs of Staff has no authority over the other members of the Joint Chiefs.

The Rockefeller panel would change this. The proposed chief of staff would be charged with seeing that unified advice on policy and execution of policy is achieved. His job would be to see that the services are coordinated on the basis of the job at hand rather than on the basis of which service is to do the job.

Also recommended is subordination of the present system of Army, Navy and Air Force missions to a simpler system of unified commands, charged with carrying out a clearly defined national strategic plan.

The report said that the United States' reliance on North Atlantic Treaty bases in Europe and Africa may be too great for these bases are vulnerable to Soviet attack.

The study was financed by the Rockefeller Brothers Fund. It was proposed by Nelson A. Rockefeller, a former assistant to President Eisenhower.

Miss Kerr Is Swamped by Letters

By BOB THOMAS

HOLLYWOOD (AP)—What happens when a movie star bares her feelings on life after death?

"It was one of the most remarkable reactions I've ever experienced," reports Deborah Kerr.

Recently Miss Kerr, along with a Nobel Prize winner and an American senator, penned her reactions on what happens to human beings after they die. The story, released by The Associated Press, was printed widely.

"The actress had done the story and forgotten about it. But she was soon reminded—the morning the story broke.

"The first thing I knew about it was when Paul Coates called me," she said, referring to the TV interviewer. "He wanted me to go on the air and tell my thoughts about immortality." She politely declined.

"Then I started getting phone calls by the dozens," she said. "Nedda Logan, the wife of Josh Logan, called and told me she had cut the story out and pasted it on cardboard to save until the day when her daughter would ask her what happens when people die.

"Rocky (Mrs. Gary) Cooper called me and many others. Most of them were people you know casually at parties but seldom hear from.

"Whenever I go out socially, the story always comes up. People are always telling how refreshing it was. The unusual thing is that I get these comments from people of all religions."

Another result: the offer from a publisher to buy an "inspirational book for women" written by Miss Kerr.

"I had to decline," she said. "To write a book like that would

News Briefs

WASHINGTON (AP)—Although 67 persons were killed in scheduled airline accidents in 1957, the Civil Aeronautics Board says the industry ended the year "with a safety rate practically unparalleled in modern transportation history."

The fatality rate was 0.2 per 100 million passenger miles flown. By comparison, the board said, highway travel had a fatality rate estimated at nearly six per 100 million passenger miles. A passenger mile is one person traveling one mile.

LONDON (AP)—Inflation is going to cost more in Russia.

Moscow radio today announced an immediate increase in the prices of vodka, wine and a number of industrial goods of secondary importance.

"The retail prices of a number of other industrial goods have been reduced," the radio said. The broadcast didn't say how much things were going up or down.

DALLAS (AP)—There was no joy in these parts today—the mighty Southwest Conference had struck out.

For the first time in history the conference had tears in three major bowl games—and lost them all. No other conference could require recording all your thoughts over a long period. I'm just too busy for that. It took me a week of solid thinking to round up my thoughts on "Life after death."

On her time off from "Separate Tables," Miss Kerr is wading through "a mountain of mail" that resulted from the story.

"Oddly enough, all of the letters so far are complimentary," she commented. "I expected to have a wave of protest from those who disagreed with me, but it hasn't come. Perhaps they are waiting before they strike."

DOROTHY DIX

Live For Today Not Yesterday

Dear Dorothy Dix: I'm writing on behalf of my brother, Craig. Two years ago he married Lorene who had been tragically widowed when she was 21—she is now 23. Judging from her actions, she married only to secure a home for her 2 year old son. She pays sentimental attention to Craig, preferring her girl friends. She still keeps a picture of her first husband on a desk and wears the rings he gave her on a chain. She's a good housekeeper and devoted mother, but she lacks something as a wife.

Dear Eileen: Lorene better wake up from the dream world of her first marriage before she makes a nightmare out of her present one.

Giving third hand advice is a most unsatisfactory way of handling a problem. I can tell you what should be done, but can you transmit the advice to Craig, who is, after all, the only person who can control the situation. He doubtless feels that if he tries to snap Lorene out of her trance, he'll be exhibiting a callous attitude. This isn't so. However, if he permits Lorene to continue living in her world of half dream, half reality, he'll be doing himself and his wife a grave injustice. Someday she must realize this is the year of 1958, and live accordingly. It might as well be now.

Dear Dorothy Dix: I've been making that statement or wanted to.

Last Saturday Texas A&M started the slide by losing to Tennessee 3-0 in the Gator Bowl.

Yesterday Rice and Texas completed the rout. Rice took a 29-7 hammering in the Cotton Bowl from a merciful Navy that didn't try too hard in the last half. Texas absorbed a 38-7 shellacking from Mississippi in the Sugar Bowl.

writing to a boy in Japan, though we have never met. He's expected back home in March. Since his boat docks in my home city, and he lives quite a distance away, would it be proper for the 16 in wife him to our home for a visit? I'm 18 so is he, and my parents would be happy to welcome him.

Dear Nell: A very nice gesture indeed and one entirely within the bounds of propriety.

Dear Dorothy Dix: I am 16 and never had a date! Boys often ask me out, but I just can't say "yes."

Dear Tracey: My goodness, if this keeps up you'll run out of potential dates. Perhaps you're not sure of your appearance, or maybe you're shy. Write for my leaflet, "Teenage Personality," which lists several books to help you in these things. I'm sure one of them will help cure your inferiority complex.

Dear Dorothy Dix: Help! I'm in love with the wife of my "bad" friend. What can I do?

Dear Sarge: Quit thinking about her and stick to your own wife. Loyalty is one of the cardinal virtues, and a marriage based on betraying both your wife and friend will have small chance of happiness.

Tired of Ham, Turkey — U. S. Turns to Beef

By THE ASSOCIATED PRESS

Tired of eating turkey and ham? The nation's supermarket apparently think a lot of people have had enough of the two for awhile, for many will feature pork and the cheaper cuts of beef this weekend.

The less expensive cuts reflect both a tight beef market and recognition that holiday gifts and entertaining have left many a household on the short side.

Church roasts will be prominently mentioned this week, along with beef blade roast and cross rib roast. Steak and shish kebab very little promotion this time around.

The most frequently mentioned pork items are pork loins, sausage and chops, rather than holiday hams. Chickens and leg of lamb are offered at lower prices than usual in some stores.

Egg prices seem to be somewhat irregular across the country, ranging from four cents a dozen lower to four cents a dozen higher.

Bargains are hard to find this week at the vegetable counters. The normally lower supplies of vegetables at this time of year are cut into even further by the freeze in Florida.

Best of the available lot, produce men say, are potatoes and onions, plus cabbage where it's available from nearby fields. Such root items as carrots and turnips are good buys, while lettuce is a fairly good buy.

But sweet corn, beans, eggplant and the like—all from Florida—are scarce and relatively expensive. Cucumbers, too, are high although somewhat cheaper than a week ago.

The embargo on shipments of Florida citrus now has been lifted, but oranges, grapefruit and tangerines are high priced and likely to stay that way for most of the rest of the winter, market men say.

This leaves apples as about the best buy.

Largest single use of tin in the United States is in tinplating.

Six West Nations to Strengthen Ties

PARIS (AP)—Six western European nations set out today along a road of unity in their economies and nuclear power development that might lead to closer political ties.

A treaty binding France, West Germany, Italy, Belgium, the Netherlands and Luxembourg into a common market went into effect with the star of 1953.

Another already signed treaty took effect at midnight Tuesday to unite the six in joint development of nuclear energy for industrial purposes.

The two supernatural groups, commonly known as Euratom and Euratom, join the first major experiment in western European unity, the pooling five years ago of coal and steel industries in the same six nations.

Girl Found Unconscious in the Snow

FREEMONT, Ill. (AP)—A 14-year-old girl was found unconscious early yesterday on a snowy lawn where she apparently had lain in near-zero weather for several hours after leaving a New Year's Eve party for teenagers.

The girl, Georgia Stoessiger, was hospitalized with both legs and her feet frozen. Hospital authorities said she was in deep shock and unable to answer questions. They said it would be several days before it could be determined if amputation of the girl's legs would be necessary.

Police Chief Walter Marsh said there appeared no evidence of foul play. He said the girl's coat was missing but her shoes were found in the yard.

Marsh said Georgia had left home Tuesday night to visit a girl friend and had taken taxi fare for the trip home. When she failed to return home after midnight, her parents learned she had left her friend's home alone at 12:30 a.m. to go to a teen-age party.

More than four hours later Mr. and Mrs. John Rust, who live near the home where the party was held, found her lying in their yard and called police.

TELEPHONE TALK

By Vance Smiley, Wire Chief, Hope, Ark.

Our New Year's Resolution

Happy New Year... in case I didn't get to wish you one in person. Here's hoping 1958 will be the best most prosperous year ever for you and your family.

Lots of folks like to take the beginning of the year to make some resolutions for the future and I have one to offer during this first week of 1958. Mr. E. M. Clark, our president, wrote it to explain the policies and objectives we try to follow in furnishing your telephone service and I thought it would make an appropriate New Year's resolution for us to make and dedicate to our customers.

We Define Our Objectives

"OUR OBJECTIVE is to furnish the best possible telephone service at a reasonable cost — a cost consistent with financial safety and fair treatment of employees.

"SERVICE ranks above everything else in this policy. And only good service is one that is continually improving. To furnish this service we need the best people, the best equipment, the best methods, and the best management we can develop.

"REASONABLE COST has been defined as one that produces an ever growing public demand. Our equipment, training, and methods would not get us nothing if the cost of service became so high that people would not buy it.

"FINANCIAL SAFETY should not be endangered by setting the price of service too low. In the long run, a price that provides profit large enough to undertake new research and development results in better cheaper service to the public.

"FAIR TREATMENT OF EMPLOYEES means good pay, good working conditions, reasonable job security, and opportunity for advancement based on merit. It is people — employees — who are the most important element in the success of any business.

We Accept These Responsibilities

TO THE EMPLOYEES: Provide machines, methods, equipment, direction, leadership, job training, incentives to progress, selection for promotion.

TO THE PUBLIC: More and better service at a reasonable cost. Contributions to public welfare and national defense.

TO THE OWNERS: Run business in a sound, profitable manner.

Looking Ahead

"PROGRESS has long been the keynote of the telephone business. And, it business forecasts are anywhere near correct the next 20 years will bring more growth and development than we have ever seen before.

"THE FUTURE can be faced confidently with a policy of equal consideration for owners, employees, and the public.

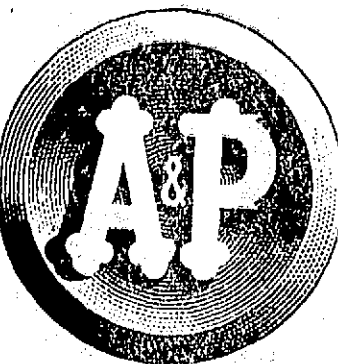

There you have it. We do our best every day to live up to this resolution and we hope you feel we're succeeding in our efforts to give you the best in telephone service.

Call by number. It's twice as fast.

CAT NAP—When George Pierce Jr. decides to take a snooze it is truly a cat nap as his pet kitty curls up on George's legs to enjoy the rest period. Little George's father, George Sr., is a staff photographer on the Memphis Semitar and just couldn't resist shooting this appealing picture.

THE STORY: The Modocs are on the warpath, but Ward Sebastian does not believe it was an Indian who shot at him on the trail, and killed one of his mules. Ward thinks he wounded the man, and will be looking for someone with a limp.

CHAPTER IV
By the time the pack string reached and headed up the curving run of Shasta Valley the darkness of day's end was closing in. A thin yellow glow had resolved through the misty dusk. A heavy voice lifted profanely and the pack mules slowed and began to bunch up. Sebastian and Sam Lester swung wide and spurred up past them.

Here were tents and men in uniform, and several campfires hissing and smoking sourly in the wetness. Blocked off by this camp set squarely across the trail, the mules were beginning to mill uncertainly. A trooper advanced on them, waving a length of firewood.

Thick-set, and wearing a sergeant's stripes, the trooper faced about belligerently. "Get those mules out of here! Where's your sense, driving into this camp?"

Crusty Sam Lester leaned truthfully forward in his saddle, a growl in his throat. "Speaking of sense, soldier, where's yours, pitching your camp across a main-traveled trail?"

Before the sergeant could answer, a young officer in a long military overcoat came briskly in past the tents.

"What's the trouble, Grimes? These mules—?"

"The mules," cut in Sebastian, "were heading for Yreka along a trail they've traveled a hundred times before. They come up against a camp set across the trail. Who's to blame?"

Meeting Sebastian's glance for a grave moment, the young officer blushed, then answered quietly. "When you put it that way, I am. Daylight was running out and I had to get my men under cover. Other outfits had already taken up the better locations. I had no time to pick and choose."

The glow of the nearest fire was weak and uncertain, yet it reached far enough to touch the face of the officer and show a pair of steady eyes and clean-cut, sensitive features.

The faint lift of anger that had begun to stir in Sebastian, faded out. "Fair enough," he conceded. "I can see how that would be. We could have been more alert. But we're just in from Tule Lake and the last time we were through, the trail was open."

Swift interest gleamed in the young lieutenant's eyes. "Tule Lake? Anywhere near the active area?"

"Near enough."

"What's the word? Here the talk has it that the latest peace effort was unsuccessful."

"No rumor," Sebastian said. "The peace palaver at Natural Bridge exploded in gunsmoke." "There's been further fightings."

"A little. Modoc raids have hit some civilians pretty savage. But the real showdown hasn't started yet."

"You believe then that this Modoc chief, this Captain Jack as he is called, will attempt to make a stand of it?"

Well, they had things to learn and learn them they would; and the lesson would be written savagely in pain and blood. "Lieutenant," he said, tersely, "That you may surely depend on Captain Jack will make a stand of it."

Grimes, the sergeant, spoke with a swagger. "If he does, he'll find the Regulars a different breed than the state militia recruits, or some rag-bunch of civilian volunteers."

Start Now Keeping Record of Expenses

WASHINGTON—If you want to be on the safe side, you'll start right now keeping records of what you receive and spend on expense accounts.

The detailed information will come in handy when you start making out your 1958 income tax returns 15 months from now.

The law requires that expense accounts be reported, but the law has been thoroughly ignored—and with impunity—by most taxpayers. The Internal Revenue Service gave many of these a scare when it indicated in October that the 1957 returns would have a blank for listing the totals.

reports, the Revenue Service back-tests that few taxpayers had the records they would need for such reports. The Revenue Service ed away from any major change for 1957 returns, but a spokesman added:

"The taxpayer is now on notice that he must henceforth keep records of his expense accounts."

back the mules, Sebastian pushed ahead and met up with a tangle of pack animals massed before the corral gate. He sent out a reaching call.

"Ho, Dan! Sebastian, here. Got my string coming in."

Orcutt's reply was swift. "Ward! Hold off for a little. Holt, right there is what I've been trying to tell you. Get your outfit clear!"

Then came Provo Holt's tight and angry reaction. "This I'll remember, Orcutt. And maybe at a time when you'll be wishing I'd forgotten. All right, McCloud, move 'em out! We got to hunt other quarters."

In the gloom not far from Sebastian there sounded a dull and weary cursing, and the jam of pack animals about the corral gate began to shift and angle away before the authority of a hard-swung rope end. Abruptly a slash whistled by Sebastian, barely missed him. He called:

"Watch yourself, Yancey! It's dark, but not that dark."

At the other end of that rope was Yancey McCloud. Kitty Dura's brother.

When to Fish or Hunt
SOLUNAR TABLES
by John Alden Knight

The schedule of Solunar Periods, as printed below, has been taken from John Alden Knight's Solunar Tables. Plan your days so that you will be fishing in good territory or hunting in good cover during these times. If you wish to find the best sport that each day has to offer.

The Major Periods are shown in boldface type. These begin at the times shown and last for an hour and a half or two hours thereafter. The Minor Periods, shown in regular type, are of somewhat shorter duration.

	A. M.	P. M.
Day	Minor Major	Minor Major
Friday	3:15 9:25	3:40 9:50
Saturday	4:10 10:25	4:40 10:50

Fishing Conditions Around Arkansas

LITTLE ROCK (U. S. Fish Commission) — Little Rock forecast prepared by the State Game and Fish Commission.

LAKE HAMMILL — Water clear and low. Crappie good on minnows, bass fair to good on artificial bait, bream good on minnows.

LAKE NIMROD — Water a little dingy. Crappie good on minnows in upper end.

HARRIS BRAKE LAKE — Clear. Bass and crappie fair on minnows. The Commission had no other reports.

Two Top Rated Cage Teams Go Into Action

By THE ASSOCIATED PRESS
West Virginia and Kansas—the nation's top-ranked college basketball teams—go into action tonight as the deluge of holiday tournaments dwindles to the vanishing point.

West Virginia, No. 1 in The Associated Press poll, entertains Canisius in its first game since shutting out North Carolina's 37-0 victory in the Kentucky Invitational Dec. 21.

Kansas, also unbeaten, goes after its 11th in a row by entertaining Oklahoma State.

The Senior Bowl tourney at Mobile, Ala., and the New Hampshire Invitational at Durham, N.H., also wind up tonight. The Citadel plays Spring Hill for the Senior Bowl championship while Harvard tangles with Amherst in the New Hampshire final.

Both The Citadel and Spring Hill won first-round games last night in the final seconds. A long field goal by Ray Graves with 10 seconds left gave The Citadel a 59-57 triumph over Florida State. A one-handed shot by Jim Carney that went into the net just as the final whistle blew gave Spring Hill a 69-67 victory over Georgia.

Harvard overwhelmed New Hampshire 78-50 and Amherst nipped Springfield 51-45 in the first round games at Durham.

In point-to-point games last night, Ohio State ended a seven-game losing streak and chalked up its first victory of the season by nipping Yale 69-67 and North Carolina State, ranked 11th nationally, wallowed Virginia 64-70 in an Atlantic Coast Conference tilt.

Studios Have Low Schedule of Production

By BOB THOMAS
HOLLYWOOD (U. S. Film Industry) — The film industry greets the new year with one of the lowest production schedules in years—only eight pictures shooting in Hollywood.

But the outlook is not as grim as it seems. The studios are full of plans to speed up production after the seasonal lull. And reports from the nation's theaters have buoyed up hopes that audiences can be lured back to movies. The blue-ribbon holiday attractions are doing fine business.

Nor is the economic outlook bad for movie workers. Although the major studios are slower down to a crawl, no less than 79 TV series are being filmed in Hollywood.

Gary Cooper is outspoken concerning his takeover to the "10 North Frederick" role after Spencer Tracy's snubbed it. "He must be nuts to turn down a role like this," Cooper remarked. "You hardly can find scripts like this any more."

The screen is getting franker and franker. "In 'A Farewell to Arms,' Jennifer Jones refers to herself as a lady of the evening, using the common word. Old-timers don't recall ever hearing the word in a movie before."

It's a sad sight to see Paramount requesting a postponement of Elvis Presley's draft. Not because there's anything wrong in the delay. But because it's sorrowful to see a once-proud studio seeking salvation with the Presley brand of entertainment.

Sign of the Times Variety has added a new section to its entertainment pages—"television."

Would School U. S. on Constellations

PHILADELPHIA (U. S. With two antilevels already circling the earth and as many as 15 more expected likely in 1958, the Fels Planetarium yesterday opened a new show to acquaint citizens with constellations.

"Knowledge of the stars and star groups or constellations can be of tremendous aid in tracking the paths of these man-made moons," said Dr. I. M. Levitt, Fels director, who gave the 1 figures for possible launchings in the coming year.

He said the lectures on constellations were part of a National Girl Scouts astronomy program.

Folley in Easy Win Over Sawyer

WASHINGTON (U. S. Zora Folley, with an easy win over newcomer Marvin Sawyer to his credit, today was talking again about a heavyweight title fight with champion Floyd Patterson.

Folley, 25, of Chandler, Ariz., had experience, record and ranking on his side last night at the Casold Arena against Sawyer.

Folley demonstrated from the opening bell his mastery over Sawyer, a 22-year-old former National Amateur champion from Cincinnati.

A left hook dropped Sawyer for a mandatory eight count in the eighth, and he barely made it to his feet in time after a series of rights and lefts floored him in the ninth. The bell found Sawyer a human punching bag against the ropes at the end of the ninth.

The decision gave Folley his 13th straight victory for a total record of 37-2-1. Sawyer now has a 1-3 record.

Folley weighed 190. Sawyer scaled 138.

Navy Coach in High Praise for His Team

By WHITEY SAWYER

DALLAS (U. S. A Navy squad Coach Eddie Erdelatz calls "the greatest team I've ever been associated with" headed home today with a 20-7 Cotton Bowl victory over Rice.

Tom Forrestal passed and punted the Middles to a 20-0 lead by the early part of the third period yesterday. The Navy hung on as Rice slugged to a touchdown and powered on a 95-yard drive that reached the Navy 2 as time ran out.

Navy, Eastern champion, now has a victory in the Cotton Bowl, one in the Sugar Bowl and a tie in the Rose Bowl. It has never lost a bowl game.

It was the first bowl loss in five appearances for Rice. Forrestal passed for 153 yards and ran for 34. Ned Oldham and Harry Hurst chipped in 50 yards and a touchdown each for Navy. Second-stringer Roland Brandquist picked up 36 yards for Navy and recovered the Rice fumble which set up the first Middle touchdown.

Sophomore quarterback Joe Tranchini got the first Navy touchdown on a one-yard plunge. Hurst went 13 for his and Oldham 19.

Rice's touchdown came on an eight-yard pass play from quarterback Frank Ryan to Ken Williams. Ryan gained 151 yards passing and 69 running. King Hill, Rice's All America quarterback, showed little, gaining 13 yards passing and 14 running.

Brandquist covered a Ryan fumble for Navy on the Rice 33 and the Middles went to their first score just before the end of the first period.

In the second period, Forrestal hit Pete Jokanovich regularly on a 60-yard TD drive with Hurst scoring on a run from the 13.

Navy end John Ruhl recovered a fumble by Ray Chilton on the Rice 20 and Oldham scored from the 19 to make it 20-0.

Late in the same period, Bobby Williams of Rice intercepted a Forrestal pass on the Navy 36. Ryan's passing to Buddy Dial and Ken Williams put the ball on the Navy 8. Ryan then hit Williams on the 1 and he dove over Hill converted.

One Duck Hunter Fails to Escape

PINE BLUFF, Ark. (U. S. — One duck hunter was drowned and four others escaped when their boat swamped in the Bayou Meto shooting grounds near here early today.

The body of Charles B. Hardin, about 40, a planter from the Swan Lake community, was recovered. Hospitalized here with shock and exposure were Roland Getchell, 42, and Jack T. Stone, 38, both of Pine Bluff. Getchell said he and Stone spent nearly three hours in shallow water which they reached when the boat went under.

Temperatures were in the mid 20s at the time.

The other hunter, Hubert E. Barksdale of Pine Bluff and Adrick Martin of El Dorado, were not hospitalized.

Deputy Sheriff Pink Booher said the accident occurred shortly after 4 a. m. near Cornerstone. Hardin was operating the 12-foot boat when it swamped.

Misses Deduction by Two Seconds

LOUISVILLE, Ky. (U. S. — Robert and Joann Greene missed a year's income tax deduction by two seconds when their new daughter, Karen Lyn Greene, was born at 12:01 a. m. New Year's Day at Mary Elizabeth Hospital.

LOUISVILLE, Ky. (U. S. — The number of bankruptcies in 1937 set a new high here. Federal District Court records show 1,198 persons filed bankruptcy petitions compared to the previous high of 931 in the Depression year of 1931.

CORPUS CHRISTI, Tex. (U. S. — Five persons suffered minor burns and cuts when an explosion caused by a leaking gas pipe demolished a small bar here. "Are you hurt?" Dot T. J. Despain asked one of the patrons who staggered out of the wreckage. "No, but I'll never drink beer in there again," he answered.

Bowl Winners Prove That Figures Just Don't Lie

By ORLO ROBERTSON
The Associated Press

The winners of the four major football bowl games proved that figures don't lie. Favored Navy, Oklahoma, Mississippi and Ohio State came through with individual star-studded victories.

Navy, the nation's No. 3 team in total offense and ranked fifth in the final Associated Press poll, wallowed Rice 20-7 in the Cotton Bowl, Oklahoma, seventh in total offense and ranked fourth, ripped out a 48-21 decision over Duke in the Orange Bowl.

Mississippi, eighth offensively and ranked seventh, buried Texas under a 39-7 score. And Ohio St. the 11th in total offense with No. 2 ranking, edged Oregon 10-7.

The surprise of the four games was not the outcome but the margins of victories. Navy, Oklahoma and Mississippi all were favored but by no such one-sided scores.

By contrast, Ohio State was picked to finish in front by three touchdowns. Yet it took a field goal in the final period to settle the issue between the Buckeyes and the Webfoots.

The Ohio State victory gave the Big Ten a 11-1 margin over the Pacific Coast Conference in the series, which started in 1947. Louisville defeated Drake 34-20 in the Sun Bowl, Prairie View A&M and Texas Southern tied 9-6 in the Prairie View Bowl and East Texas State nipped 'em Mississippi Southern 10-9 in the Tangerine Bowl.

Prairie View put together its six points with a safety in each of the last three periods after Texas Southern had scored in the first quarter.

The four major bowls, played before national television audi-

ences, were sellouts. The largest crowd of 98,202 was in the Rose Bowl at Pasadena, Calif. The Sugar Bowl in New Orleans was jammed with 82,000 fans, the Orange Bowl in Miami with 76,318 and the Cotton Bowl at Dallas with 75,504. The addition of 23,399 at the three smaller bowls brought the total turnout to 337,024.

Among the day's stars were Navy's Tom Forrestal, Mississippi's Ray Brown, Oklahoma's Dave Baker and Ohio State's Don Sutherlin.

Forrestal, directing an almost flawless attack, passed for 153 yards and chipped in with some fancy running as the Middles picked up 275 yards through the air and on the ground.

Brown ripped off one run of 103 yards (92 yards from line of scrimmage) as he scored two touchdowns, passed for another and set up still another with a pass interception.

Baker hung up an Orange Bowl record when he intercepted a Duke pass and raced 94 yards for the first Oklahoma touchdown.

Sutherlin, a substitute halfback, provided the finishing touch to Ohio State's victory with a 17-yard field goal.

Navy completely dominated the Rice Owls but missed several opportunities to score because of penalties and fumbles. A pass interception set up the Southwest Conference eleven's lone touchdown.

While Forrestal was voted the game's outstanding back, he received great help from Ned Oldham and Harry Hurst. Each picked up 50 yards and scored a touchdown. The other came when

PASSAGE DISCOVERED
The Northwest Passage finally was discovered in 1905, when a ship sailed around the northern part of the continent and entered Asiatic waters. The ship was the Glen, commanded by Roald Amundsen.

second-stringer Roland Brandquist plunged the last yard.

A 27-point last quarter settled the issue between Oklahoma and Duke. The Sooners capitalized on six Duke mistakes in racking up their third straight Orange Bowl triumph against an Atlantic Coast Conference foe.

After Baker's long run, the Sooners converted two Duke fumbles, a blocked punt, a wild snap from center and another pass interception into touchdowns.

Brown's was almost the entire show in Mississippi's first Sugar Bowl victory after losses to Georgia Tech in 1935 and Navy in 1935.

Ohio State scored the first time it got the ball with Frank Kremlas making the final yard. Oregon matched it at the end of an 80-yard drive in the second quarter.

The Buckeyes then traveled 80 yards in 14 plays before the attack stalled on the 17. Then came Sutherlin's field goal for Ohio State's third Rose Bowl triumph since 1950.
